INJURY TO THE LONG BRIDGE. - The Washington Republican of this morning says:

"The steamer Rattlesnake, laden with a thousand tons of coal, left the Consolidation Company's wharf, Georgetown, yesterday afternoon shortly after 5 o'clock for a Northern port. As it neared the Long Bridge the draw on the alarmed and ran away. One ran up the pike, through. After the inquest the remains were taken to Farmington, but were brought back to this city in a row boat last night, and were interred here to day.

FESTIVAL. - The festival at the Assembly Rooms last night was well attended by a large company, who seemed to enjoy themselves greatly notwithstanding the heat. The ladies somehow possess the art of making such places of resort agreeable in spite of the fact that one invariably, leaves with a lighter purse than when be enters. But if an evening's enjoyment may be purchased at the small outlay required there, the sum is well expended. The festival will be continued until Saturday.

When Bowen vacates the Mayor's chair in Washington on Monday next, he will be, it is said, for the first time in thirty years, without an office. So far as the people of Washington are concerned, he is likely to be thirty years without an office, if he lives that long. A Radical paper says that "the defeat of the Radical party in Washington seems to be absolute!" Seems to be! Nay, actually is! There is no seeming about it.

merchandise and on incomes. Mr. Ferry presented the memorial of Mr. Hatch, an American citizen, in relation to his being held in prison in St. Domingo Mr. F. in presenting the memorial urged that Hatch had been kept in prison through the machina

tions of a U. S. officer, Gen. Babcock, lest Hatch might interfere with the projects for an nexation. Mr. Sumner-He ought to be cashiered from

the army at once. Mr. Chandler said Hatch was a troublesome,

meddlesome, worthless scoundrel and had justly been imprisoned. Mr. Ferry replied that Hatch was a gentleman of reputation as high and character as spotless as the Senator from Michigan. He

moved that the petition be referred to the com-

mittee on Foreign affairs. Mr. Sumner declaimed with much bitterness against the conduct of Gen. Babcock. Mr. Nye vehemently denounced the proposition to refer the petition to the committee on foreign affairs with Mr. Sumner as Chairman, who had already expressed the opinion that Gen. During the debate frequent allusions were made to the Santa Domingo annexation treaty now under consideration in executive session, the friends of annexation charging that the enemies of that measure were seeking in this indirect way to strike down an effcient friend of appexation.

Mr. Patterson said that on the subject of annexation the committee on foreign affairs was nearly equally divided. The petition was referred to a special com-

mittee. The House of Representatives was occupied in the consideration of the Currency bill.

John D. Owen and G. C. Marshall of King George county; R. E. Pevton of Fauquier county, and Wm. Irvine of Falmouth, are the only petitions from the vicinity of Alexandria, since Monday, for the removal of political disabilities.

SPECIAL NOTICES.

The Life Sustaining Organs.

The two organs which mint ter most directly to the support of the body, are the stomach and iver. In the former the first process of digestion takes place under the action of that nowerful solvent, the gastric juice. Thence the food, converted into a pulp, passes into the duodenum, where it is subjected to the action of the bile or gali flowing from the liver and of the fluid generaten by the pendereas, or sweetbread of the system These secretions separate the nutritious portion from the rest, and it is then taken up by the absorbent vessels and conveyed into the channels of culation in the form of venous blood, while the waste matter is discharged through the bowels. Unless all these processes are duly performed, disease of some sont is inevitable, and the best of all medicinal agents for preserving or restoring the time and regulating the action of the three organs—(the stomach, liver and intestines)—by which the three-fold work is carried on, is Hostetter's Stomach Bitters. Indigestion is generally accompanied by constitution by constipction, and the gentle cathartic opera-tion of the Bitters is no less important in cases of this kind, than its tonic effect upon the stomach and the biliary gland. Beauty of person as well as health, depends in no small degree upon the regularity of the exerctive functions. A sallow complexion, a thick opaque coarse skin, a tainted breath, rush of blood to the head, loss of memory, headache, and extreme mental depression, are the usual accompaniments of costiveness. A course of the Bitters will infallibly relieve, and finally banish these obnoxious symptoms, while invigorating the stomach and promoting heal-thy action in the liver. This genial vegetable stomachic and alterative, strikes at disease in its primary sources, the assimilating, secre-

effects are consequently thorough and com-

tive and expulsive organs, and the cures it

It is a duty we owe to ourselves, as well as o those who are dependent upon us, to preserve our health and strength.
